

Recommendations of the Transfer Committee for Annual General Transfers 2026 on Administrative Posts in ESIC

The Annual General Transfers (AGT) for the year 2026 are being implemented in accordance with the Policy for Transfer/Posting of Medical Officers to Administrative and Clinical Posts, issued on 17.12.2024. As per Clause 7(a) of this policy, a list of vacant administrative posts, including those anticipated to become vacant within the next 12 months, was prepared and published via Med-6 circulars dated 03.12.2025. In accordance with Clause 10.b. of the policy, the Transfer Committee was constituted as follows:

1. Director General, ESIC – Chairperson
2. Medical Commissioner (Medical Administration) – Member
3. Medical Commissioner (Medical Education) – Member

The Committee convened on multiple occasions to deliberate upon the transfer/posting requests for administrative posting received through the online portal. All requests were examined in light of the relevant provisions of the transfer policy, including general principles, eligibility criteria, prescribed experience, and the steps defined for recommending the medical officers against vacant posts. The Committee also took into account the urgent administrative staffing requirements in newly proposed hospitals/medical colleges.

The Committee adopted the following approach while making its recommendations:

1. Past performance, administrative competency and any past/ ongoing disciplinary actions/ complaints were considered while proposing officers for vacant administrative posts.
2. The impact on medical services at the current location of medical officer was taken into account before recommending transfer to an administrative post at a different location.
3. Medical Officers who sought retention in clinical posts in their remarks section were retained unless necessitated by administrative requirements.
4. Medical Officers who had not completed the prescribed tenure of three years at their current administrative posting were generally not considered, except where administrative requirements necessitated their transfer.
5. Medical Officers who had completed three-year tenure at an administrative post at a location were generally not considered for another administrative tenure at same location unless no other suitable candidate is identified.
6. Requests from Medical Officers who had challenged their previous transfer orders through legal course were not considered, as the matter remains sub judice.
7. Medical officers who had not submitted any transfer request but eligible were considered as per organizational requirements
8. Medical officers have been proposed for transfer/ posting in newly established hospitals/ medical colleges as per administrative requirements.

1

1

The Committee recommends that Medical Officers proposed for posting in less preferred locations or recommended against choice may be posted for a period of two year.

Based on the above principles, the required experience for each post, the order of preferences submitted by Medical Officers vis-à-vis administrative requirements, and with due priority to organizational interest, the Committee proposed the administrative postings as under:
