

Recommendations of the Transfer Committee for Annual General Transfers 2026 on Clinical Posts in ESIC

The Annual General Transfers (AGT) for the year 2026 are being implemented in accordance with the Policy for Transfer/Posting of Medical Officers to Administrative and Clinical Posts, issued on 17-12-2024. As per Clause 8a.a. of this policy, a list of vacant clinical posts was prepared by a committee and published by Med-6 Division, ESIC Headquarters vide circular dated 08.12.2025. In compliance with Clause 10.c. of the policy, the Transfer Committee was constituted as follows:

1. Director General, ESIC – Chairperson
2. Medical Commissioner (Medical Administration) – Member
3. Medical Commissioner (Medical Services) – Member

The Committee convened on multiple occasions to deliberate upon the matter and examined all transfer/posting requests for clinical postings received through the online portal. The Committee considered the relevant provisions of the transfer policy, including the General Principles, General Criteria for Transfer, and the prescribed steps for proposing Medical Officers for transfer/posting for clinical posting.

In adherence to the principles of the Transfer Policy, organizational interest has been accorded paramount importance during the transfer and posting exercise. The equitable distribution of Medical Officers across institutions was also kept in view to ensure accessible and quality medical care to Insured Persons (IPs) and their dependents. Further, the impact on medical services at the present place of posting was duly considered before recommending transfers to clinical posts at different locations. The Committee also took into account the urgent clinical staffing requirements in newly proposed hospitals/medical colleges.

After due consideration of the above, the Committee adopted the following approach:

1. Requests from newly appointed Medical Officers were not considered, except those recruited under the PwD category, subject to administrative feasibility.
2. Requests from Medical Officers who had not completed three years of tenure and sought transfer were generally not considered, unless necessitated by functional requirements.
3. Requests for retention were considered, subject to functional requirements.
4. Requests from Medical Officers who had challenged their previous transfer orders through legal proceedings were not considered, as the matter remains sub judice.
5. PG-qualified GDMOs seeking postings in ESIC Hospitals or Medical Colleges were considered as per their order of preferences vis-à-vis functional requirements.
6. PG-qualified GDMOs who did not submit requests or sought postings in locations other than Hospitals/Medical Colleges, have been proposed for transfer/posting to various ESIC Hospitals or Medical Colleges based on functional requirements.

1

7. Requests on grounds of relevant DoPT instructions and those approaching superannuation were considered, subject to meeting the functional requirements.
8. Certain Medical Officers have been proposed for transfer in the interest of functional requirements, irrespective of tenure and regardless of whether they submitted requests or sought different locations.

The Committee recommends that Medical Officers proposed for posting in less preferred locations or recommended against choice may be posted for a period of two year.

Based on the above, the proposed transfers in various cadres of Medical Officers are as under:

Sl No	Employee Number	Employee Name	Cadre Name	Specialization	Current Post & Location	Ordered Post & Location	Remarks
